

2016 part 2

- 1) What is physical development? What are the stages of it 3+12  
Or  
2) Concept of parametric and non parametric statistics with their assumptions. 10  
3) Short note (any Two): a) forgetting b) proactive active inhibition c) field study 5+5
- 

- 1) Define mentally retarded children. Discuss about the methods of educating retarded .  
3+12  
Or  
2) What is correlation? Discuss about assumption and properties of biserial , pbiserial and product moment correlation.  
3+12  
3) Short note (any one): a) learning b) correlation 5
- 

- 1) What is statistical inference? Discuss about its steps. 3+12  
Or  
2) Define experimental design. In this context discuss about the randomized group design 3+12  
3) Short note (any one): a) absolute threshold b) psychophysics 5
- 

- 1) Define hypothesis. Discuss about the criteria of a good hypothesis 2+8  
Or  
2) Assessment technique of personality and intelligence. 5 +5  
3) Short note (any two) : a) DL b) gradation method c) practice and fatigue effect 5+5
- 

- 1) What is moral development? Discuss about the theory moral development 15  
Or  
2) Discuss about the emotional development throughout the life span . 15  
3) Short note (any one): a) stages of prenatal development b) gifted children 5

- 1) What is item analysis? Discuss about the steps of it. 15  
Or  
2) Define validity? Discuss about the different types of it. 15  
3) Short note (any one): a) reliability b) norms 5
-
